

INTERNSHIP POSITION IN BERLIN-BASED STARTUP

ABOUT US:

METABUILD is disrupting the way buildings are designed. Our cloud-based software helps architects and real-estate developers create better buildings using data science and advanced simulation algorithms.

YOUR TASKS:

Your tasks will be related to research & development and business development. You will help our team of architects, engineers and IT experts further develop our software + database and you will support us initiate strategic partnerships. Your work will include research & development tasks, customer communication, account management and day-to-day management tasks.

ABOUT YOU:

You are an efficient, self-motivated and flexible multitasker with good German and/or English communication skills. You hold a bachelor's degree in a field related to the built environment, e.g. architecture, civil engineering, urban planning, renewable energy, etc.

WHEN TO START:

We prefer a starting date as early as possible and an internship duration of 6 months.

YOUR BENEFITS:

- You will join a passionate team, an inspiring office space in Berlin and a vast expert network.
- You will gain insights into consultancy work, business development & software development.
- You will be given the opportunity to grow within the company.

HOW TO APPLY:

Please send your CV and a few lines about your interests and goals to: hello@metabuild.io

Get in touch with us and tell us about yourself! If you want to learn more about METABUILD, visit www.metabuild.io
